## Create a Family Disaster Plan

A personal safety plan can make your family safer during hurricane season. First, know if you live in an evacuation area. Next, know your home's vulnerability to **storm surge**, **flooding** and **wind**.

Your plan is based on this knowledge. The following options will help guide your decision to stay at home or evacuate. If you live in a mobile home or on a boat, you must always evacuate.

**Option A:** **Stay at home.** If your home can withstand the expected winds, and you are away from the coast and not in a flood prone area, consider staying home. (See the current ALL HAZARDS GUIDE or visit [www.LeePA.org](http://www.LeePA.org))

**Option B:** **Stay with a relative, friend, or hotel outside the evacuation area.** If you plan to do this, make arrangements in advance. Consider where you will go if the friend or relative is not home.

**Option C:** **Relocate out of the area.** Local officials will tell you which evacuation routes to use. Plan your route ahead of time, also plan alternate routes. Include maps and directions in your hurricane kit. Leave early to avoid high wind and flooding.

**Option D:** **Go to a public shelter** if you have no safe place to go. Local media will announce which shelters are open. Do not wait until the last minute to learn the route to the shelter.

- **Evacuate if ordered.**
- **Move quickly but without panic.**
- **Execute your family plan.**

**Gather and record important information in this booklet to create your Family Hurricane Plan. This plan will help you and your family prepare for Hurricane Season. After your plan is complete, discuss it with everyone involved and keep a copy in your Hurricane Kit.**

## EVALUATE YOUR RISK

<b>What is the storm surge category where your home is located?</b> <small>(see the current ALL HAZARDS GUIDE or visit <a href="http://www.LeePA.org">www.LeePA.org</a>)</small>	
<b>What is the finished floor elevation for your home's first floor?</b>	

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	I live in a Tropical Storm or Category 1 Storm Surge Area.
<input type="checkbox"/>	<input type="checkbox"/>	I live in a mobile or manufactured home.
<input type="checkbox"/>	<input type="checkbox"/>	I live in an RV or onboard a boat.
<input type="checkbox"/>	<input type="checkbox"/>	I live on an island.
<p>If you answered YES to any of these, <u>your home is not safe from storm surge</u>. You will be among the first to be ordered to evacuate. Keep a copy of your plan handy, prepare your supplies and evacuate immediately if ordered.</p>		

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	My home does not have a hurricane rated garage door.
<input type="checkbox"/>	<input type="checkbox"/>	My home has a gabled roof.
<input type="checkbox"/>	<input type="checkbox"/>	My home does not have storm shutters or other code approved window protection.
<p>If you answered yes to any of these questions, you should protect and strengthen those areas. If you have not addressed these, you should probably evacuate.</p>		

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	I am required to purchase flood insurance.
<input type="checkbox"/>	<input type="checkbox"/>	My home was built prior to 2003.
<input type="checkbox"/>	<input type="checkbox"/>	There are large trees that could hit my house if they blew over.
<input type="checkbox"/>	<input type="checkbox"/>	My home has two or more stories constructed of different materials. (i.e. CBS lower story and wood framed upper story)
<input type="checkbox"/>	<input type="checkbox"/>	I live in a building with an elevator and would have a hard time getting in and out if the elevator did not work.
<p>If you answered yes to any of these questions, you or your home may be vulnerable to the impact of a hurricane. You should consider evacuation.</p>

## RENDEZVOUS AND ALTERNATE COMMUNICATION PLANS

Families could get separated during an emergency. List a local place to meet if you can't get back home. What should your children do if they are separated and can not return home? Where should they go?

--

Local communication systems may fail. It is important to develop alternate communication plans in case anyone needs to contact you. Choose a local and an out-of-state contact. Provide them your contact information and tell others to contact them if they can not contact you.

## PLAN FOR INSURANCE NEEDS

Flood insurance is a good idea even if it is not required by your mortgage company. You may need two separate policies. One covers the structure and the other covers the contents.

What is the estimated market value of your home?	
Does your policy provide full replacement value for your home?	
What is your total deductible amount (This will be your out-of-pocket cost.)	
Have you reviewed your insurance coverage within the last two years?	

What is the estimated value of the contents of your home?	
Does your policy provide full replacement cost for your contents?	
What documentation is required for your contents and property?	
Do you have a list of your belongings with pictures and documentation?	
Do you have additional riders for special items or increased coverage?	
Do you have an Additional Living Expense rider in your insurance policy?

## PLAN FOR PETS AND SERVICE ANIMALS

Pets are not allowed in most shelters. In Lee County, South Fort Myers High School on Plantation Road in Fort Myers will be available for pets and people on a first come – first serve basis to people residing in areas or structures under MANDATORY EVACUATION orders. Contact Lee County Animal Services at 239-344-4424 for more information.

**Service animals are allowed in all shelters.** The owner is responsible for maintaining control of the animal and providing food, water and other animal needs.

Some motels and hotels allow pets. Research locations and include locations outside our immediate area in case local facilities are closed or full. Make your reservations early. Helpful websites include: [www.pets-allowed-hotels.com](http://www.pets-allowed-hotels.com) and [www.petswelcome.com](http://www.petswelcome.com).

Gather the following supplies. Make sure you have separate supplies for each animal. Even animals that normally get along well together should be handled and caged separately.

- A sturdy cage or carrier for each animal. Label it with your contact information.
- One week supply of food and water in spill proof containers with a manual can opener
- Non-spill food and water bowls
- Medications (including heartworm and flea and tick preventative)
- Leash with collar and/or harness and a muzzle for cats and dogs
- Comfort items (favorite toy, blanket, treats)
- Sanitary clean-up supplies (cat litter, litter pan, scoop, plastic bags, paper towels, newspaper)
- First Aid kit and Manual (contact your vet)

Gather and store important records and documents in waterproof containers.

- Ownership papers
- Recent pictures of your animal from all angles (many animals look alike to strangers)
- Up to date Veterinary and Vaccination Records
- Make sure your animal wears a collar with rabies tags and identification tags as appropriate
- RFID information (ask your vet about this)

Collect and record important information as part of this plan.

## PLAN FOR BOATS and RVs

Do not weather the storm in your boat, RV, or mobile home. Develop a detailed plan to secure your vessel well before hurricane season. Move your boat from the threatened area, or take your boat to a previously identified hurricane refuge if possible. Practice your plan. Take action early. The storm's fringe activity will make preparations more difficult.

Done	
<input type="checkbox"/>	Consolidate all records (recent photo, registration, insurance policies, equipment inventory, and marina or storage agreement) and important telephone numbers.
<input type="checkbox"/>	Check your lease or storage rental agreement. Know your responsibilities and liabilities as well as those of the marina.
<input type="checkbox"/>	Never leave boats on davits or on a hydro lift.
<input type="checkbox"/>	Move small boats to safe shelter or put your boat in the garage, if you have room.
<input type="checkbox"/>	If your boat remains in berth, check the integrity of primary cleats, winches, and chocks. Use substantial backing plates and adequate stainless steel bolts.
<input type="checkbox"/>	Double all lines with crossing spring lines fore and aft. Attach lines high on pilings to allow for surge. Protect lines from chafing with heavy duty chafing gear.
<input type="checkbox"/>	Charge batteries for automatic bilge pumps.
<input type="checkbox"/>	Seal all opening with duct tape to make boat as water tight as possible.
<input type="checkbox"/>	Use heavy duty dock fenders to reduce dock and piling crash damage.
<input type="checkbox"/>	Remove loose gear from the deck. Store it securely inside or at home.
<input type="checkbox"/>	For a boat on a trailer, lash the boat and trailer down in a protected area. Let the air out of the tires before tying the trailer down. Place blocks between the frame and axle, inside each wheel. Secure with heavy lines to fixed objects in all 4 directions. Small boats may be filled with water for added weight after lashing down.
<input type="checkbox"/>	Remove the outboard motor, battery, electronics and store them.

Do not weather the storm in your mobile home, travel trailer or recreational vehicle

Done	
<input type="checkbox"/>	Check tie downs.
<input type="checkbox"/>	Put up storm shutters.
<input type="checkbox"/>	Stow / Secure awnings, antennae or other attached items.
<input type="checkbox"/>	Secure all loose articles in yards and around the unit.
<input type="checkbox"/>	Inspect your vehicle to ensure it is roadworthy and leave early if evacuating.
